In this MFP, the P stands for Productivity.

Samsung Multifunction *Xpress* M2875FD/M2875FW

Mono Laser MFPs Designed for Maximum Productivity

Samsung wants you to win every new assignment. Meet every deadline. Make the most of every minute. That's precisely what the Samsung M2875FD/M2875FW network and wireless MFPs are designed to do. With print, copy, scan and fax capability, a 12,000-page monthly duty cycle, a 40-sheet automatic document feeder and a host of other time- and money-saving features, they're ready, willing and able to excel at every new job that comes through your door.
Be More Productive (4-in-1)
Speed through print and copy jobs at speeds up to 29 ppm/cpm. Scan and fax easily. Take advantage of the large 40-sheet ADF capacity, and use the numeric keypad to make quick work of complicated jobs.

Efficient
Get the most from each page with built-in duplex printing (printing on two sides), and save money by using Eco mode to save on toner and paper.

Professional Image Quality
Samsung's ReCP image processing technology combines with our polymerized toner for sharp, crisp, high-resolution images. And the two-piece toner system means you can replace the toner and drum separately, for greater cost efficiencies.

One-Touch Wireless Setup
Getting up and running with the wireless M2875FW is effortless. Just press the WPS button (Wi-Fi Protected Setup) on your WPS enabled router and the WPS button on the M2875FW, and your MFP will automatically configure and connect to your wireless network. Simple.

Easy Mobile Printing
Scan or print from your iPhone®, iPad®, Windows® Phone or Android® mobile device directly to the wireless M2875W. Just download our free Mobile Print app, and you're ready to go.

Sleek, Professional, Silent Design
Samsung products not only perform beautifully, they're designed to look beautiful, as well. Sleek and stylish, they'll impress you even when they're off. And with printing volume at less than 50 dBA, they're the strong, silent type.
